Chairman's Message

This year will mark the 23rd year of uninterrupted growth since Tasty Bite was launched in the US in 1994.

Dear Shareholders,

It is intuitive and even axiomatic that 'Wellness' is holistic. We think of physical, mental, emotional and spiritual wellbeing when we think of the human condition. But why restrict holism to individuals - why not use the same broad brush for institutions and corporations as well?

It's problematic to draw corporate wellness conclusions only from metrics like Market Share, Revenue Growth and Profitability. Even when they are encouraging, these may turn out to be *false positives*. Companies are responsible not only for the return on shareholder's equity, but also for the satisfaction of the customers they serve; the security, wellbeing & happiness of the employees who work there; for responsible conduct towards the larger community in which they exist and

for protecting & nurturing the environment and resources that sustains us all. Most importantly, they need to stay relevant and thrive. Companies don't have a life cycle. Only their products do.

Over the years, this has been the philosophy and the approach of my communication to you in the Company's Annual Report. This year is no exception. In fact, the company's mission and strategy statement (reproduced elsewhere in the Annual Report) has ensured this holistic approach for managing and growing the business over all these years.

By no means do I trivialize the standard measurements of corporate performance. In fact, you will be pleased with the results your company has achieved this year.

Overall Performance:

It is once again my pleasure to report an accelerating growth trajectory for the business. You might recall we recorded 17% revenue growth in the previous year; that has accelerated to 22% in 2016-17 with net Revenues of ₹ 255 crores as compared to ₹ 208 crores in 2015-16. You've heard me use the term profitable growth repeatedly over the years EBIDTA is one indicator of that. From 6.8% of revenues in 2011-12, it has grown steadily to 17.8% last year at ₹ 45.4 crores. Profit after tax is another good measure. PAT grew twice as fast as revenues to ₹ 22.8 crores! This was more than 41% compared to last year.

Both the Consumer Business (CB) and the Tasty Bite Food Service (TFS) business saw major capacity expansion and modernization during the year as we gear up for continued growth. We expect Capex to be a recurring activity over the next few years to meet growing demands across all our 3 technology segments of Ready-to-Serve (RTS), Sauces and the Formed Frozen products (FFP)

TBRC, our accredited Tasty Bite Research Center (TBRC) made us proud once again. We won the Food Processing Magazine's 2016 R&D Team of the year award.

Consumer Business:

In our largest consumer market of N.America all three categories – *Entrees, Organic Rice & Grains and Spice & Simmer sauce kits* saw market share and double-digit volume growth during the year. Significantly, this growth was widespread across all channels of Grocery, Club and Private Label. This is reflected in Exports Growth in TBEL of nearly 22% to ₹ 160 crores.

You will recall, we test-marketed the Spice & Simmer range in the US last year. This year saw the national roll out as we moved into major retailers across the US. Two of our SKUs, Thai Green Curry and Tikka Masala, won the prestigious SOFI Silver and Bronze award in the US in the Sauce & Marinade category.

This year will mark the 23rd year of uninterrupted growth since Tasty Bite was launched in the US in 1994. Between all our SKUs the brand today has over 125,000 PODS (points of distribution). With a brand max ACV of nearly 47% it probably has the widest distribution in N.America of any consumer product manufactured in India.

Food Service Business:

The QSR industry in India had a rough year with declining SSSG (Same Store Sales Growth) across all leading brands as competition increased in metros and the demonetization only exacerbated the situation.

However, the Tasty Bite Food Service business (TFS) managed to maintain its growth path on the basis of strong product innovation and customer partnership. The TFS business grew 18% over last year to ₹ 77 Crores.

The company's strategy of focusing on Natural foods even for the QSR industry helped drive market share with each of its customers:

- Tasty Bite became the first company in the country to produce 'All Natural' - preservative free pizza sauce for all leading pizza brands in India. The company invested considerably in R&D and new technology this year, and became the dominant supplier of pizza sauce across the industry.
- We are in a QSR test market with an innovative frozen multi cuisine rice bowl. It's early days but initial trials are promising and the opportunity is large.
- Other Frozen launches for our key customers during the year included spicy cheese poppers, hara bhara kabab, and paneer burger patty.
- Our decade-long relationship with Hindustan Unilever (HUL) became stronger with a new specialty line of sauces being added to our portfolio. We expect our business to sharply increase through the next fiscal year

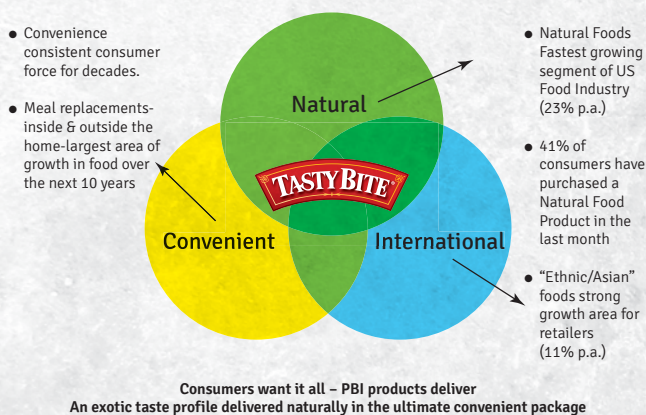

- The TFS business took baby steps to expand its global footprint and established business in Singapore, Malaysia, Sri Lanka, UAE, Kuwait and South Africa with leading QSR brands. We expect this to be an important growth driver in the coming years.

The Environment:

This is a very special year. In a manner of speaking the company just turned 18! It was that many years ago that Preferred Brands International Inc. (PBI) acquired majority equity in TBEL. It was hence only natural that I would revisit the first Annual Report of 1998-99 in which we chronicled the ‘4C Turnaround Strategy’ that helped the company emerged out of BIFR.

In that report we also discussed *Megatrends*-three of them on particular. This chart appeared in the 1998-99 Annual Report and is reproduced here.

A Convergence of Consumer Trends

These megatrends formed the foundation of our business. In this year's Annual Report we revisit them. It is our belief that these same megatrends remain as relevant today as they did back then. Let's take a closer look.

Health & Wellness: The first megatrend we called 'Natural' might have been dismissed as a fashion and fad in the 90s. Today, the correlation between food and wellness is indubitable and natural foods have become a consumer imperative and organic foods are on the rise. Chemicals, additives, artificial preservatives & colors are simply not acceptable. Even

GMOs and gluten have entered the consumer lexicon and are being viewed suspiciously.

However, this megatrend is not only about rejection. It's also about adoption. Vegetables like Kale and Spinach; ancient grains like Quinoa, Amaranth and Millets, spices & condiments like Turmeric, Cinnamon and edible fats like Butter and Ghee have all been rediscovered.

Flavor: Back then we called this megatrend 'international'. The consumer palate is on world cruise. Globalization, rediscovery of new ingredients and the increased awareness of wellness related to food, have all contributed to adoption of new cuisines and flavors. In fact consumers have already moved from multiple cuisines in a week (Indian, Italian, Mexican, etc.) to multiple cuisines within a meal and within a dish. *Sriracha sauce with wings, Tandoori Chicken Pizza and Paneer Burger* are but incipient examples of this megatrend. Flavor and great taste will inevitably prevail over pure play cuisine.

Convenience: It's nice to be Epicurean, but being a multi-cuisine chef is not practical. Add to this the crumbling gender barrier (itself a megatrend) with men & women working longer hours resulting in less time in the kitchen and we'll realize we don't need perspicacity to see the continued growth of convenience foods. While this has been on a growth trajectory for a few decades now, the difference today is consumers want *convenience without compromise*.

These three megatrends each represent double-digit growth in an industry whose annual growth rate at <1% barely keeps pace with population. Tasty Bite however has consistently outpaced industry average and for the 52-week period ending March 2017, the brand grew 15% in US conventional Grocery.

Corporate Responsibility: There is a fourth megatrend emerging that has less to do with products and more to do with corporate responsibility, transparency and business process. We had dedicated last year's annual report to the Paris climate accord and discussed widely the steps your company

has taken in the pursuit of the UN Sustainable Development Goals (SDGs). This year the company we formally adopted 12 of the 17 SDGs.

Sustainability is embedded in the DNA of the company. Here's a summary of some of the initiatives:

- Sugarcane briquettes continue to fuel our boilers to generate steam accounting for above 70% of our energy consumption.
- Wind energy is nearly 18% of our power consumption.
- Water conservation continues to remain a major initiative. This year alone a record 72 million liters of water was recycled!
- Rainwater harvesting is now in its 4th year and the benefits of it are hard to quantify but the rise in water table is significant.
- We just commissioned a bio-gas plant that uses our organic waste and today powers our Research Center and our campus street lighting.
- The Tasty Bite Organic farm now houses the Sustainability Center and a Training and Development lab for farmer extension programs.

We continue to be driven by the philosophy that *it is no longer sufficient for companies to follow sustainable*

practices only if they make business sense. *Our responsibility is to make business sense out of sustainable practices.*

At the time of going to print we received news from the Great Place to Work Institute that Tasty Bite was rated Top 25 in India's great mid-size workplaces.

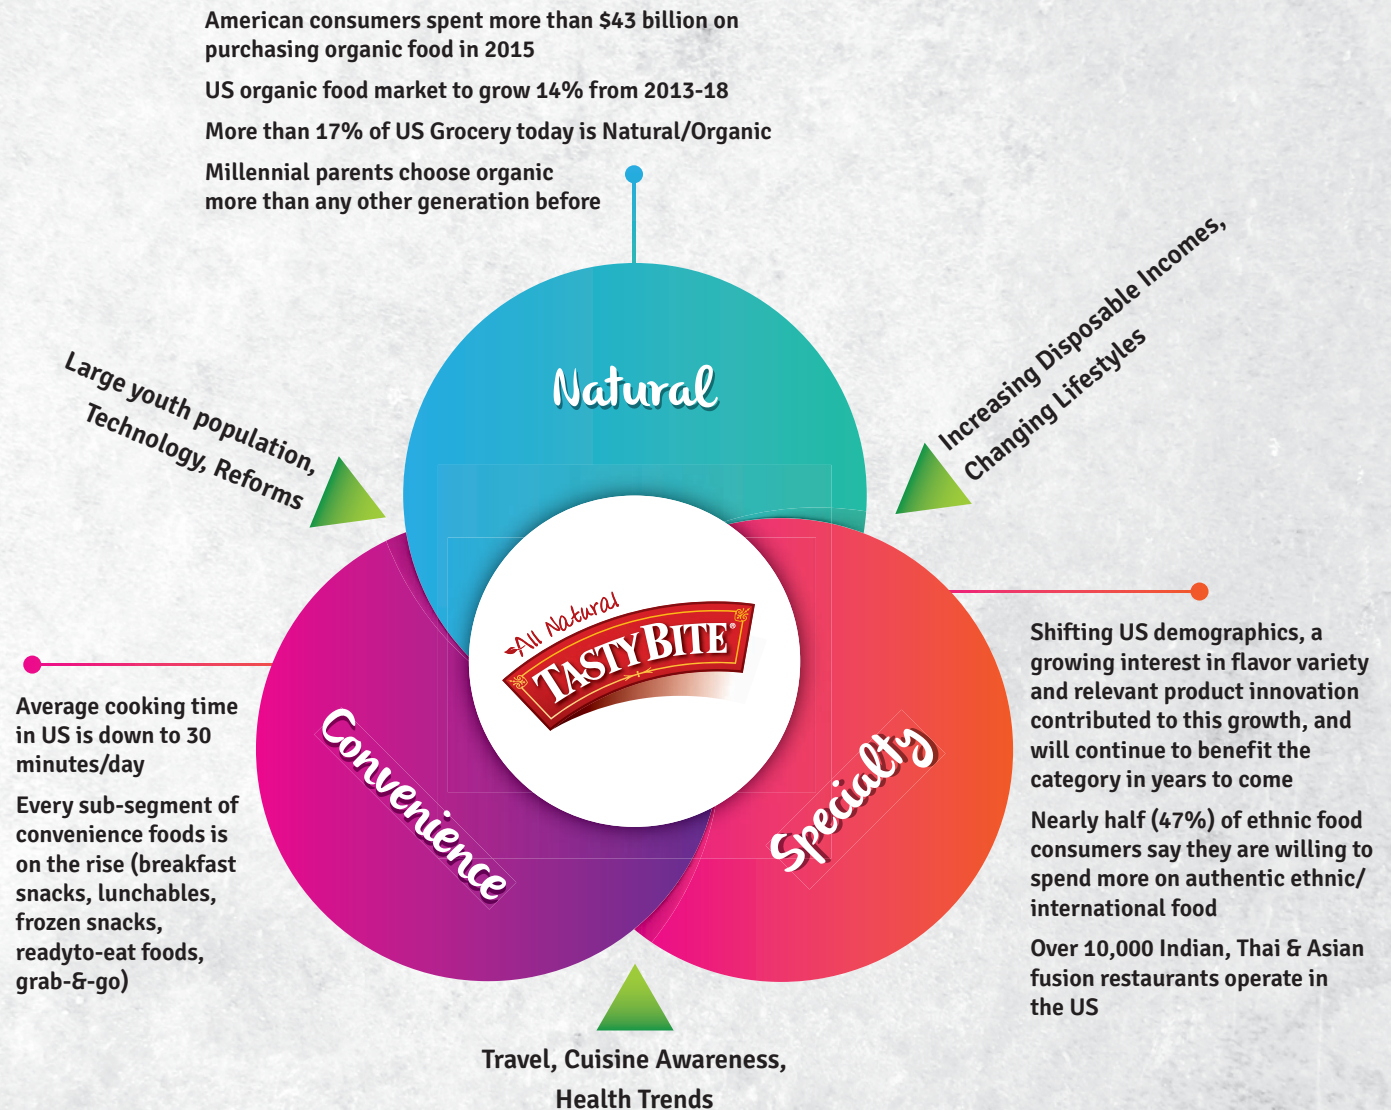

I'd like to express my appreciation and gratitude to all employees at TBEL as they continue to make us proud even as they move from strength to strength. It has been my privilege to lead this team and I continue to be inspired by their dedication and professionalism. They remain our true competitive advantage.

On behalf of the Executive Committee (E-Com) that came together as the founding team in 1998 (that includes Meera Vasudevan, Ravi Nigam, Sohel Shikari, Hans Taparia) I wish to express my deep gratitude to you, other stakeholders of the company and to the extended family members of Tasty Bite for your long friendship, trust and counsel over the years. What a knowledge-driven, energetic and fun journey it has been!

Thank you

Ashok Vasudevan

Consumer Trends } Always on the Top

Tasty Bite has always been ahead of the curve when it comes to anticipating consumer trends in food industry. We have always believed in being responsible to delight our consumers. With the expansion and adoption of mobile technology, transparency about product information is fostering brand loyalty and market shares. Manufacturing with Natural ingredients has been a part of our mission statement.

Trends indicate that food expenditure is a large part of consumer expenditure. Government is making business processes easy and compliance on safety standards is mandatory. Tasty Bite has been at the

forefront of gathering this knowledge and using it to the advantage of our customers.

Tasty Bite is aware of the major challenges within our industry and has consistently taken measures to progress skills and knowledge of our people. We have been studying markets and following our consumers. We understand that our consumers now need food that is not just convenient, natural, tasty but also special. While this has multifold implications on what we make and how we make, it is also making us understand the psychology behind occasion based food consumption. The consumption of ready food is growing in India too following the European and American trends.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Megatrends

Over the past twenty plus years, our business has been at the intersection and growing on the back of three consumer-led megatrends. These are (1) health and wellness, (2) convenience and (3) an increased consumer preference towards international cuisines and flavors i.e. ethnic & specialty foods.

Your Company has two broad business verticals, (1) a Consumer Business that comprises of ready-to-eat and ready-to-cook Indian and Asian entrées, sauces and a range of ready-to-eat organic rice and grains; and (2) a food service business that comprises a range of specialty formed frozen products, sauces and gravies. Our consumer products are marketed entirely outside of India through our parent company, Preferred Brands International Inc. while market for our food service products is primarily in India and is marketed directly by your Company to major QSR (Quick Service Restaurants) and HORECA (Hotels, Restaurants and Caterers) players. We have also started developing exports market for foods service products and have managed to get entry into Singapore, Middle East etc.

We provide a perspective on megatrends that have been the inspiration behind the inception of the business and continue to be driving forces for our growth in the future.

Increasing focus of millennials consumers on health and wellness are leading them towards foods that are all natural and have organic ingredients, i.e. vegetables, lentils and other raw materials that are grown naturally without the use of chemical fertilizers and pesticides. The natural food industry is now a \$120 billion opportunity in the United States, your Company's largest market, and has been growing at a rate of 10% per annum over the past 7 years. Today, over 17% of the US grocery industry comprises of natural/organic products. Consumers also spent more than \$43 billion on purchasing organic products. The organic market has been growing even faster at 14% per annum. This growth outpace the overall grocery industry growth which is at 0.5% - 0.75% per annum with many of the traditional categories declining as consumers choose healthier natural options. Your Company's has products range which is all natural with a clean label, vegetarian and non-GMO.

The second megatrend that has been an engine of growth for our business is convenience. While consumers gravitate towards natural 'clean-label' foods, they also have less time to prepare their foods and meals from scratch. The average cooking time in the US is down to 30 minutes per day. Every sub-segment of convenience foods is on the rise such as, breakfast snacks, lunchables, frozen snacks, ready-to-eat foods and grab-n-go.

Finally, shifting US demographics, a well-traveled consumer who is willing to experiment with her palate is fueling demand for specialty foods. Indian and Asian cuisines with their robust flavors and spices are one of the fastest growing international foods in the United States. Nearly half of ethnic food consumers say that they are willing to spend more on authentic ethnic/international foods. The first exposure to new cuisines is restaurants and today there are over 10,000 Indian, Thai and Asian restaurants that operate in the US.

The food service industry in India has attractive dynamics and is poised for sustained long-term growth. Favorable Indian demographics coupled with increasing disposable incomes have contributed to the growth of the industry. Food constitutes the largest retail consumption category in India with a contribution share of 43% in FY-15. Growing at an average annual rate of 12-13%, the food consumption spend is expected to be more than twice its current value by 2025. Given the outlook, several international and domestic restaurant chains and food service operators have set up operations in the country over the last decade.

While long-term growth drivers for the industry continue to remain in place, in the short term most industry players have been experiencing declining same store sales. Chains are mostly concentrated in metro cities and increased competition for 'share of stomach' is one of the reasons for this. Secondly, consumers are increasingly demanding new and innovative products in the menu and brands that are able to deliver this are likely to remain relevant. Finally localization of offerings is an important driver for success. The need to focus on local taste and flavors is important to gain acceptance of Indian consumers.

**includes operational income that is linked to export-driven consumer business*

Despite the global headwinds and domestic challenges your Company had a good year with revenues growing 22.3%. Our export business grew 22.4% on account of increasing demand by consumers for our products, growth in distribution as well as the success of our new categories such as ready-to-eat rices.

The Tasty Bite Food Service (TFS) business has grown 18.4% despite the fact that QSR (Quick Service Restaurant) industry faced pressure because of a general slow-down in the economy which has adversely impacted same store sales. Your company continues to invest in R&D to develop new and unique products that help to grow the market for our customers.

RTS (Ready-to-Service) segment touched revenues of Rs. 160 crores. Formed frozen products (FFP) and Sauces are two profit centers that cater to products for the domestic TFS business touched revenue of Rs. 76.9 crores. Other income touched Rs. 18 crores and includes operational income coming from government export incentives that are linked to exports revenue, scrap sale, interest income, forex gain and others.

During FY'17 Profit before tax (PBT) increased to 34.7 crores from Rs. 24.6 crores in FY'16, an absolute increase of 41%. Material costs have decreased from 59.3% in FY'16 to 58.6% in FY'17. The decrease is attributed to a combination of good agricultural yields and strategic decisions to forward buy key commodities such as onions, rice, tomato paste etc that insulated your Company from inflation and volatility of these commodities. Your Company has also taken several improvement projects, *Kaizens*, to improve the efficiencies in the area of production and utilities that has resulted in lower wastages and higher yields.

Interest costs reduced to Rs. 1.60 crores in FY'17 from Rs. 2.4 crores in FY'16 even though the total long term loan at the end of March 2017 was Rs. 16.3 crores higher than last year. This was on account of the lower cost of capital availed from the Company's new Japanese bankers (Mizuho Bank and The Bank of Tokyo Mitsubishi "UFJ", Ltd) and a reduction of the working capital facilities from Rs. 16.8 crores in FY'16 to Rs. 13.6 crores in FY'17 on account of strong internal cash flows from the business and efficient cash utilisation. Further all these credit lines i.e. both short term and long term are unsecured.

The Company successfully undertook a series of capital expenditure projects during the financial year. It first added capacity in the Ready-to-Eat manufacturing line and did significant improvements in this area to improve quality and workplace improvements. It created a brand new workmen entrance, change rooms and also air-conditioned the entire high risk manufacturing area. This first phase of capex completed in November 2016. Almost immediately, the Company embarked on the second phase of capital expansion. This included a further expansion of the Ready-to-Eat manufacturing capacity and the doubling of our sauce manufacturing line. The new sauce line will allow us to manufacture basic sauces using a hot-filled and preservative free technique. This will not only double our existing capacity but will provide the company with significant competitive advantage given the pull from customers and consumers for preservative free products.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in Para 2 (f) 'Report on Other Legal and Regulatory Requirements' in our Independent Auditor's Report to the members of the Company on the financial statements for the year ended March 31, 2017.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **TASTY BITE EATABLES LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
